System Requirements:

In order to play the game, your computer needs a graphics card that is capable of rendering (displaying) the game's graphics at a minimum of 32 frames per second (FPS). Furthermore, your computer needs to have a fast, dedicated video card and a relatively fast hard drive. Depending on the gaming hardware you have, it may be more efficient to start the game on a smaller resolution and reduce the graphics settings to around

medium to low. We recommend that you check your system specs using the following instructions: Windows XP - Click Start, and then click Control Panel
